

Which of these angles is greater than 90 degrees and less than 180 degrees?

☐ A

☐ B

☐ C

☐ D

Each picture shows an object containing a particular volume of liquid.

Draw lines to match each volume of liquid with its most appropriate unit of measurement.

litres

millilitres

kilolitres

Liam shaded the multiples of 4 on this number chart.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30

He then shaded the multiples of 6.

How many numbers were shaded twice?

☐

2

☐

3

Farmer Jones had two water tanks, tank A and tank B, that he needed to fill. He turned on the taps at 7 am. Both tanks finished filling at the same time.

The line graph shows the volume of water in each tank during the day.

Select **all** of the statements that are correct.

- ☐ Water was poured into each tank for 9 hours.
- ☐ Both tanks were empty at 7 am.
- ☐ At 11:30 am, tank A had 10 kilolitres more water than tank B.
- ☐ At 1 pm, tank B was two-thirds full.
- ☐ The total capacity of both tanks combined is 90 kilolitres.

Arun is at a theme park waiting in a queue for the Wild Jet ride. Every 3 minutes, a boat with 5 people leaves.

A boat leaves and Arun counts 26 people ahead of him in the queue.

How many minutes will Arun have to wait until his boat leaves?

- ☐ 15
- ☐ 18
- ☐ 21
- ☐ 27

Sally boards a ferry at Daisy Bay at 11:12 am.

The ferry departs 10 minutes later and stops for 8 minutes at each of the wharves along the route before arriving at Grevillea Cove at 1:05 pm.

How long was Sally's ferry ride **not** counting the time spent at wharves?

79 minutes

93 minutes

103 minutes

119 minutes

Ann has some triangles that are identical to the triangle shown.

What is the smallest number of these triangles that Ann can fit together to make a larger triangle?

- ☐ 2
- ☐ 3
- ☐ 4
- ☐ 9

Mr Smith has a repair shop. He had some bicycles and tricycles and replaced all of their wheels. He used 27 wheels altogether.

bicycle

tricycle

If he repaired more tricycles than bicycles, how many tricycles did he repair?

☐ 5

☐ 6

☐ 7

☐ 9

Priya drew this shape on square grid paper.

If the area of the shape is 20 square centimetres, what is the perimeter of the shape?

centimetres

On a dice, the number of dots on the opposite sides always add up to 7.

Kelly is making a dice using this net and places a dot on one of the sides.

Click on the side where Kelly must place 6 dots.

Naomi is making a pattern using black and white squares.

shape 1

shape 2

shape 3

shape 4

How many more black squares than white squares are in shape 7?

Farmer Ted has less than 90 sheep. He wants to put the same number of sheep in each paddock.

If he puts the sheep into 10 paddocks or 4 paddocks, there are 3 sheep left over.

If he puts the sheep into 7 paddocks, they are equally distributed.

How many sheep does Farmer Ted have?

Kim had these three shapes.

She overlapped them to make a shape with the smallest possible area.

Which shape did Kim make?

Jane used a set of balance scales to compare the masses of some solids. Solids with the same shape had the same mass. Her results are shown below.

Order the solids from lightest to heaviest.

lightest

heaviest

At Lisbon Post Office there are 5 rows of post boxes and 40 post boxes in each row. Some of the post boxes are shown in the diagram. The boxes in each row are numbered consecutively with a 3-digit number. The first digit on each box indicates which row the box is in. Those beginning with the digit 1 are in the top row, those beginning with the digit 2 are in the second row and so on.

How many post boxes have a 3-digit number where each digit is odd?

Lai has 3 yellow blocks and 3 red blocks. Each block is the same size.

She uses 4 blocks to make a stack.

How many different stacks of 4 blocks can she make if at least two of the blocks are yellow?

☐ 10

☐ 11

☐ 12

☐ 14

John has made a drawing of some circles inside a rectangle. The centre of each circle is marked with a dot.

The length of the drawing is 56 centimetres (cm).

What is the height of the drawing, in centimetres?

cm
