

Q1

Select B5, D2 and G3.

Q5

Select A6, D2 and F7.

Q2

Select the letters having one or more lines of symmetry?

G    A    K    H

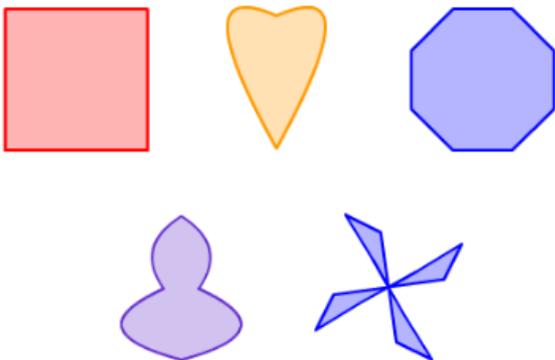

Q6

Select the letters having one or more lines of symmetry?

U    O    X    G

Q3

Select the shapes which have **rotational symmetry**.

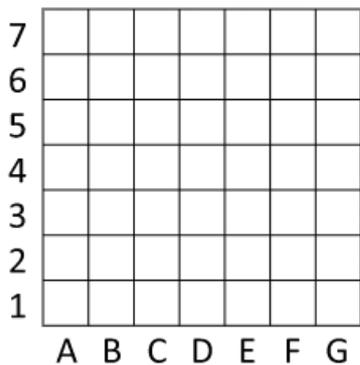

Q7

Select the letters having one or more lines of symmetry?

Q    O    X    T

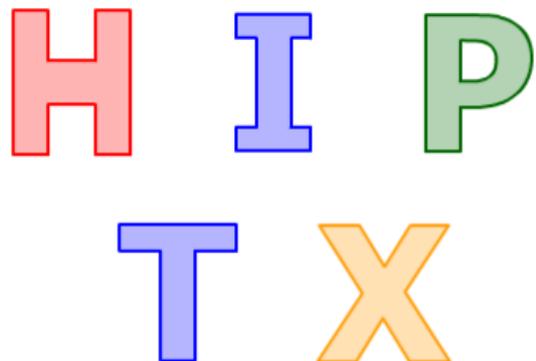

Q4

Select A7, E2 and G1.

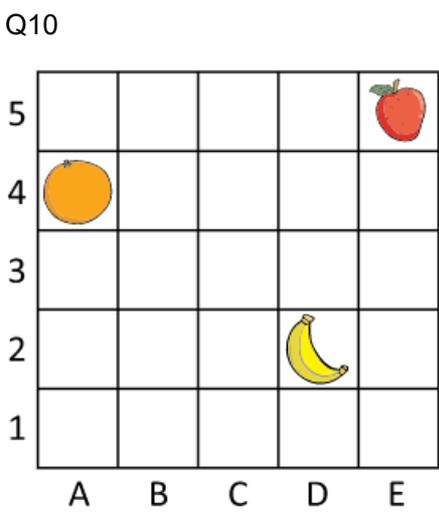

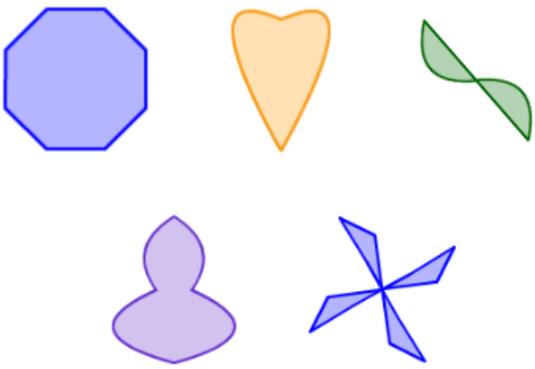

Q8

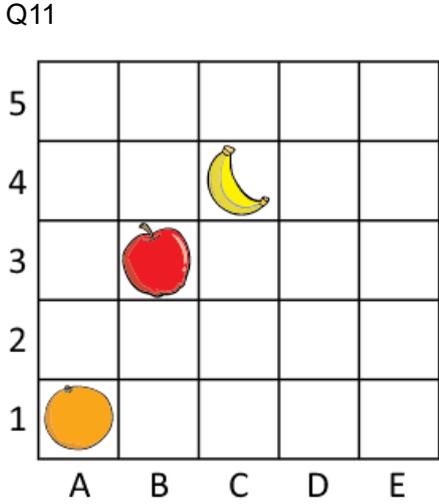

Select the letters which have **point symmetry**.

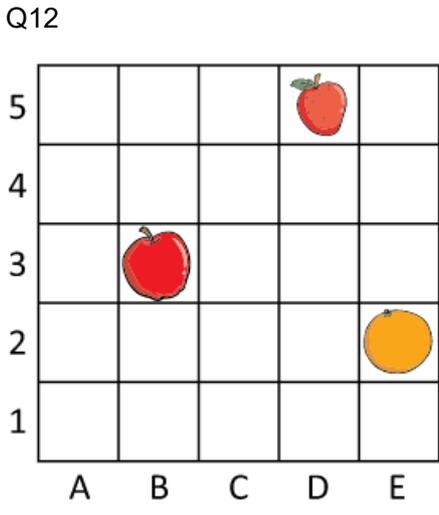

Q9  
 Select the shapes which have **point symmetry**.

Write the coordinates of:  
 the orange   
 the banana   
 the strawberry

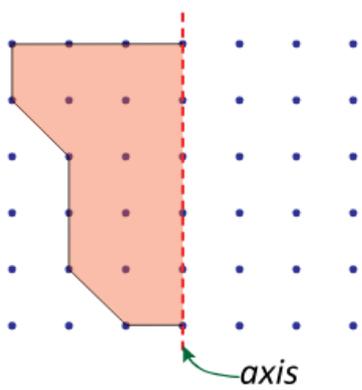

Write the coordinates of:  
 the apple   
 the orange   
 the banana

Write the coordinates of:  
 the apple   
 the orange   
 the strawberry

Q13

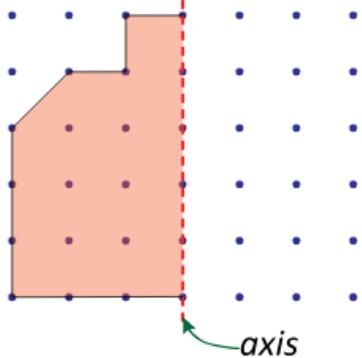

Complete the shape given the axis of symmetry.

axis

Q14

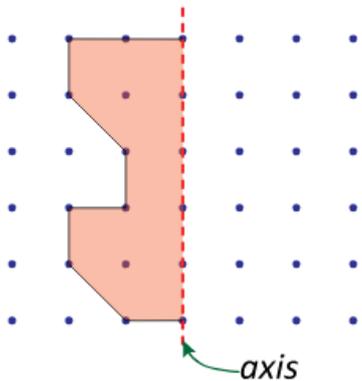

Complete the shape given the axis of symmetry.

axis

Q15

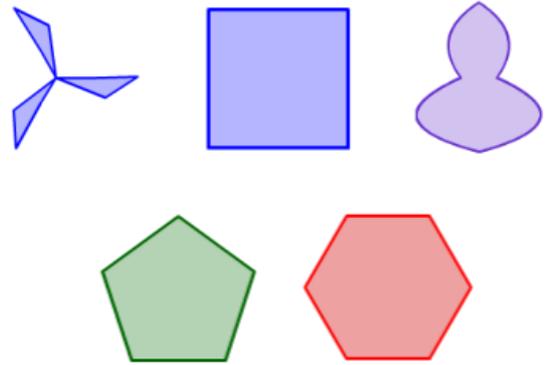

Complete the shape given the axis of symmetry.

axis

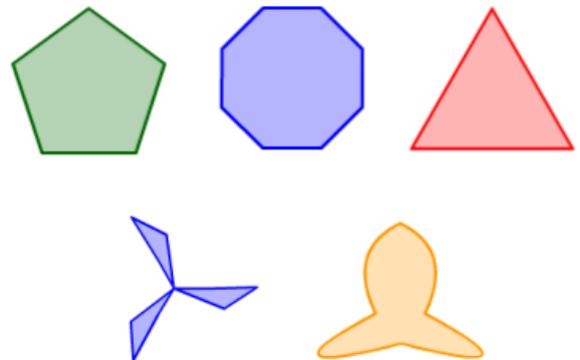

Q16

Select the shapes which have **rotational but NOT point symmetry**.

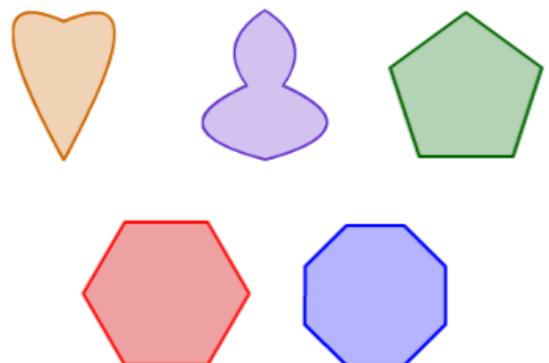

Q17

Select the shapes which have **rotational but NOT point symmetry**.

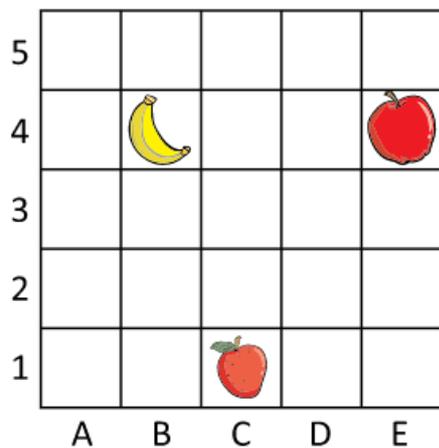

Q18

Select the shapes which do **NOT** have **rotational symmetry**.

Q19

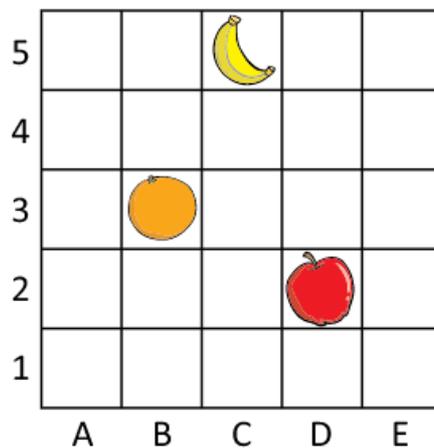

Write the coordinates of:

the apple

the banana

the strawberry

Q21

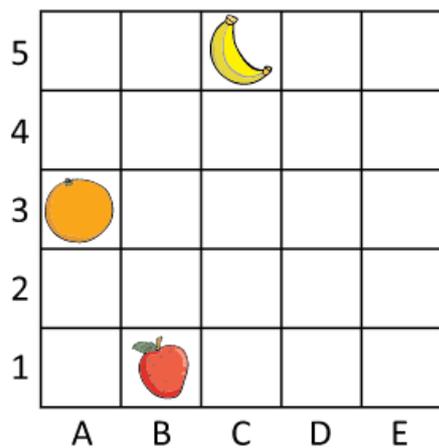

Write the coordinates of:

the apple

the orange

the banana

Q20

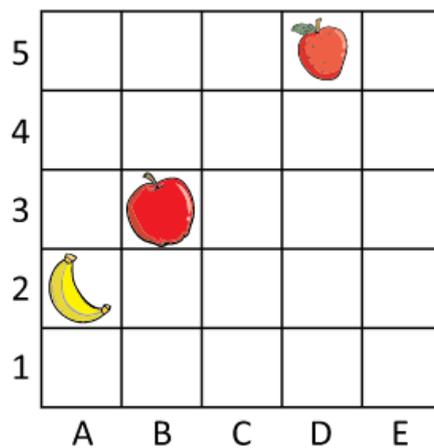

Write the coordinates of:

the orange

the banana

the strawberry

Q22

Write the coordinates of:

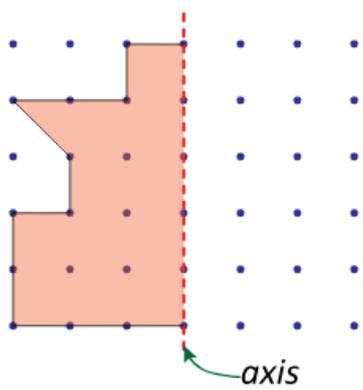

the apple

the banana

the strawberry

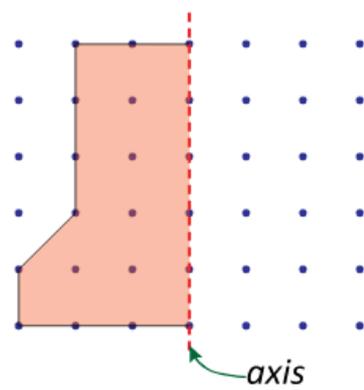

Q23

Complete the shape given the axis of symmetry.

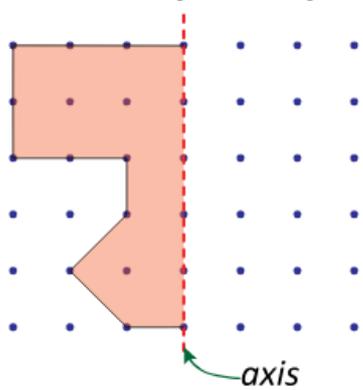

Q26

Complete the shape given the axis of symmetry.

Q24

Complete the shape given the axis of symmetry.

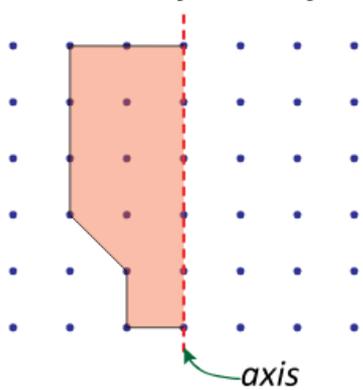

Q27

Select the letters which do **NOT** have **rotational symmetry**.

Q25

Complete the shape given the axis of symmetry.

Q28

Select the letters which have **rotational symmetry**.

Q29

Select the letters which have **rotational symmetry**.

I N O

P Z

Q30

Select the letters which have **rotational symmetry**.

H I G

N Z
