

Year 5 Class 25 questions

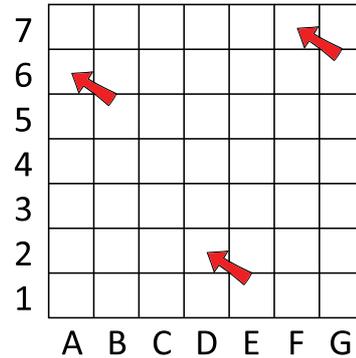

Q1

Select B5, D2 and G3.

Q5

Select A6, D2 and F7.

Q2

Select the letters having one or more lines of symmetry?

G → A K → H

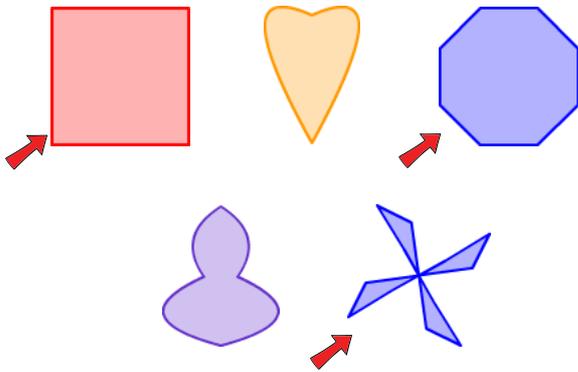

Q6

Select the letters having one or more lines of symmetry?

→ U → O → X G

Q3

Select the shapes which have **rotational symmetry**.

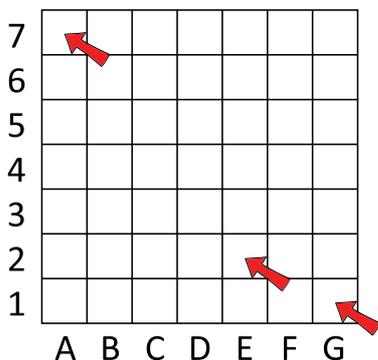

Q7

Select the letters having one or more lines of symmetry?

Q → O → X → T

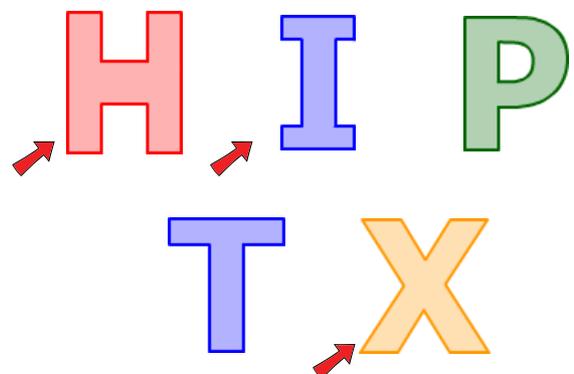

Q4

Select A7, E2 and G1.

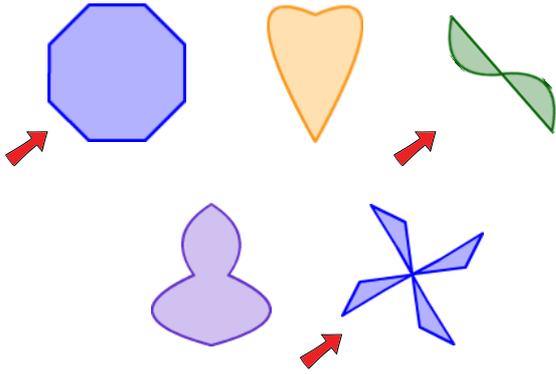

Q8

Select the letters which have **point symmetry**.

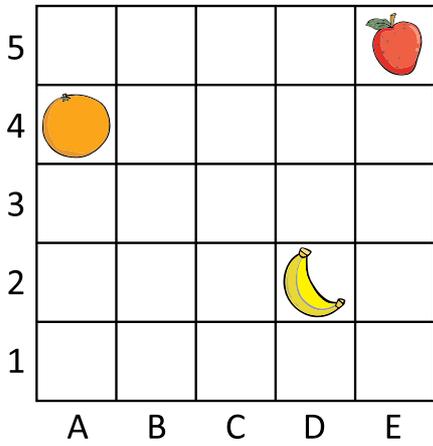

Q9

Select the shapes which have **point symmetry**.

Q10

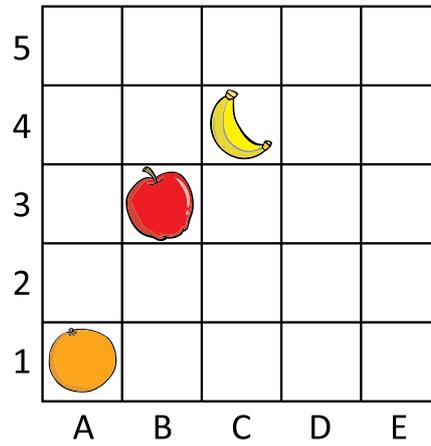

Write the coordinates of:

the orange A4

the banana D2

the strawberry E5

Q11

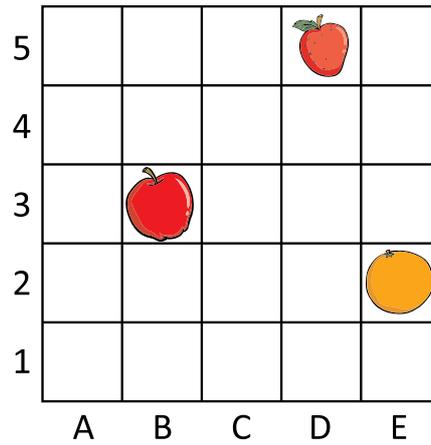

Write the coordinates of:

the apple B3

the orange A1

the banana C4

Q12

Write the coordinates of:

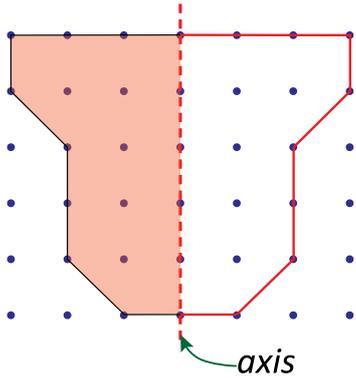

the apple B3

the orange E2

the strawberry D5

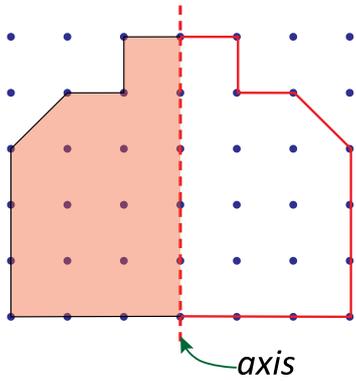

Q13

Complete the shape given the axis of symmetry.

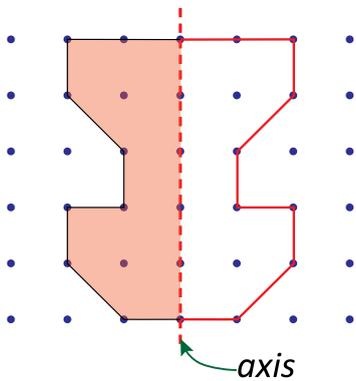

Q14

Complete the shape given the axis of symmetry.

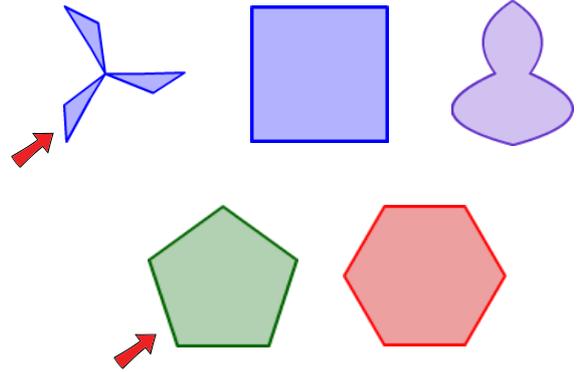

Q15

Complete the shape given the axis of symmetry.

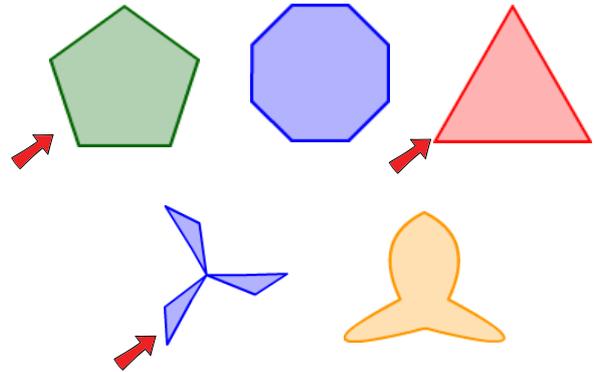

Q16

Select the shapes which have **rotational** but **NOT** point symmetry.

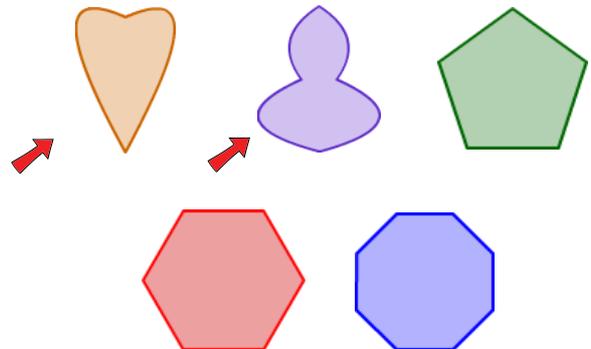

Q17

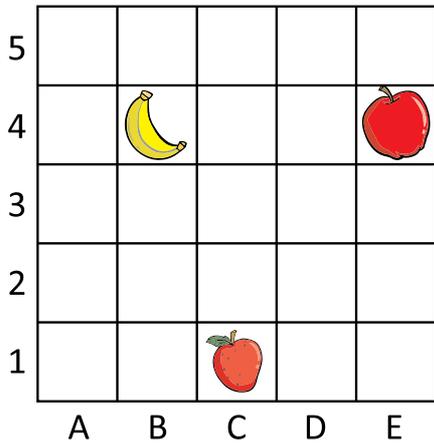

Select the shapes which have **rotational** but **NOT** point symmetry.

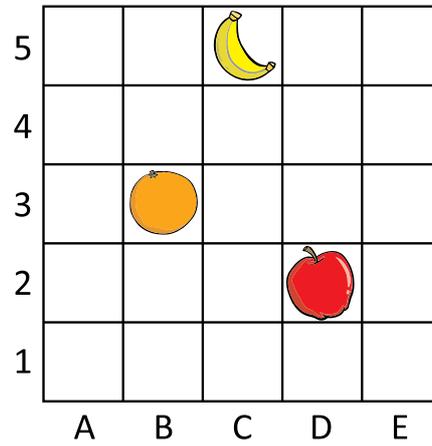

Q18

Select the shapes which do **NOT** have **rotational** symmetry.

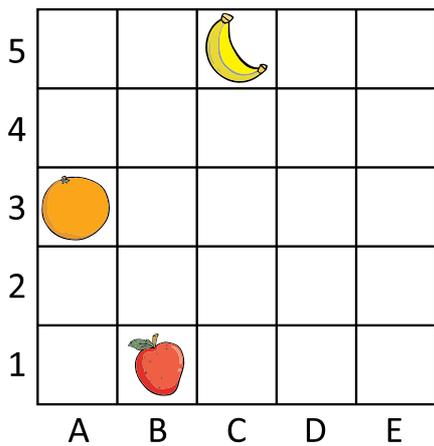

Q19

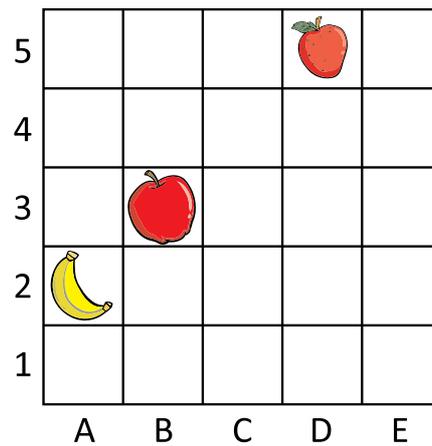

Write the coordinates of:

the apple E4the banana B4the strawberry C1**Q21**

Write the coordinates of:

the apple D2the orange B3the banana C5**Q20**

Write the coordinates of:

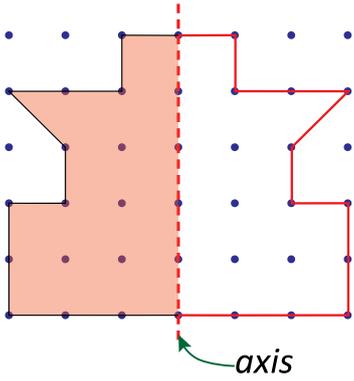

the orange A3the banana C5the strawberry B1**Q22**

Write the coordinates of:

the apple B3the banana A2the strawberry D5

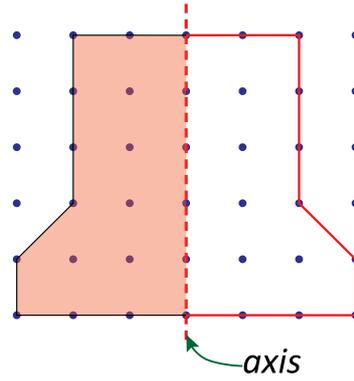

Q23

Complete the shape given the axis of symmetry.

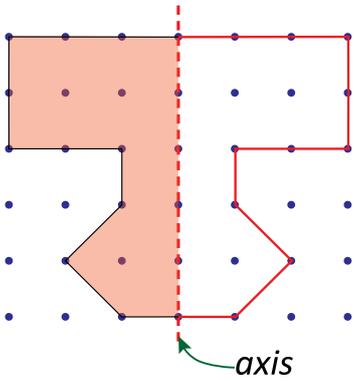

Q26

Complete the shape given the axis of symmetry.

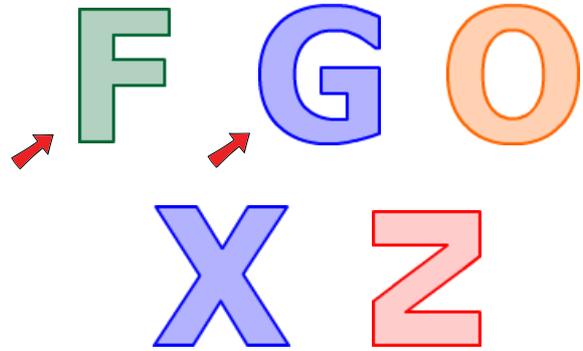

Q24

Complete the shape given the axis of symmetry.

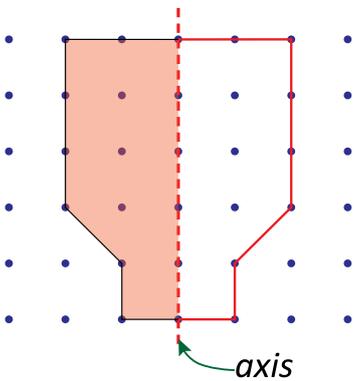

Q27

Select the letters which do **NOT** have **rotational symmetry**.

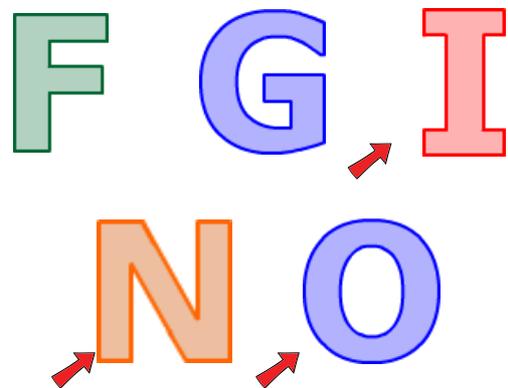

Q25

Complete the shape given the axis of symmetry.

Q28

Select the letters which have **rotational symmetry**.

Q29

Select the letters which have **rotational symmetry**.

**Q30**

Select the letters which have **rotational symmetry**.
