

Year 5 Class 27 questions

Q1

If today is Monday, what chance is it that tomorrow will be Friday?

- unlikely (probably won't happen)
- likely (probably will happen)
- ➔ no chance
- fifty-fifty

Q2

If today is Monday, what chance is it that tomorrow will be Wednesday?

- unlikely (probably won't happen)
- ➔ impossible
- certain
- even chance

Q3

A normal six sided dice is rolled. Find the probability that it lands on 5 or 6.

$\frac{1}{3}$

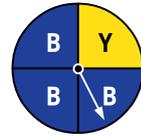

Q4

A normal six sided dice is rolled. Find the probability that it lands on an even number.

$\frac{1}{2}$

Q5

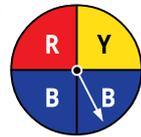

What is the chance the arrow on the spinner will land on green?

- likely (probably will happen)
- three chances in four
- ➔ impossible
- one chance in four

Q6

What is the chance the arrow on the spinner will land on blue?

- likely
- ➔ fifty-fifty
- impossible
- three chances in four

Q7

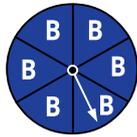

What is the chance the arrow on the spinner will land on yellow?

- likely
- ➔ unlikely
- impossible
- fifty-fifty

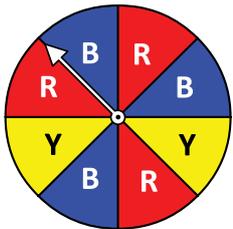

Q8

What is the chance the arrow on the spinner will land on blue?

- certain
 unlikely
 impossible
 likely

Q9

The spinner is spun once.

Find the probability that the spinner lands on red.

$\frac{3}{8}$

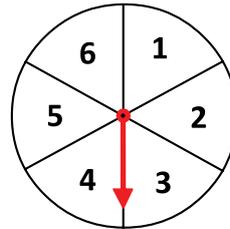

Find the probability that the spinner lands on red or blue.

$\frac{3}{4}$

Find the probability that the spinner does not land on either red or blue.

$\frac{1}{4}$

Q10

The spinner is spun once.

Find the probability that the spinner lands on an even number.

$\frac{1}{2}$

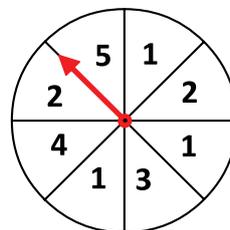

Find the probability that the spinner lands on a number less than 4.

$\frac{1}{2}$

Find the probability that the spinner lands on 5 or more.

$\frac{1}{3}$

Q11

The spinner is spun once.

Find the probability that the spinner lands on an odd number.

$\frac{5}{8}$

Find the probability that the spinner lands on 3 or less.

$\frac{3}{4}$

Find the probability that the spinner lands on a number greater than 4.

$\frac{1}{8}$

Q12

A card is picked at random from a standard deck of 52 cards. Find the probability that it is red.

$\frac{1}{2}$

Q13

When the arrow is spun, what is the chance that it lands on green?

- even chance
- two chances in three
- one chance in three
- unlikely (probably won't happen)

Q14

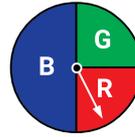

When the arrow is spun, what is the chance that it lands on blue?

- even chance
- two chances in three
- two chances in five
- likely (probably will happen)

Q15

When the arrow is spun, what is the chance that it lands on red?

- likely (probably will happen)
- one chance in three
- one chance in four
- even chance

Q16

A die is rolled. What is the chance of getting a 9?

- no chance
- one chance in six
- two chances in three
- likely (probably will happen)

Q17

A die is rolled. What is the chance of getting a 2?

- even chance
- three chances in four
- likely (probably will happen)
- unlikely (probably won't happen)

Q18

What is the chance the arrow on the spinner will land on yellow?

- likely (probably will happen)
- certain
- three chances in four
- one chance in four

Q19

What is the chance the arrow on the spinner will land on blue?

- unlikely
- certain
- three chances in four
- one chance in four

Q20

What is the chance the arrow on the spinner will land on blue?

- certain
- impossible
- two chances in three
- one chance in three

Q21

A pack of 52 playing cards has 4 suits: Clubs, Spades, Diamonds and Hearts. Julie draws one card from this pack. Find the probability that the card is:

a Heart. $\frac{1}{4}$

a red (Hearts or Diamonds). $\frac{1}{2}$

a black (Spades or Clubs). $\frac{1}{2}$

a black 6. $\frac{1}{26}$

an Ace. $\frac{1}{13}$

Q22

A bag contains 3 blue, 5 black, 6 red and 6 chrome hairclips. Gillian is going to do her hair. Find the probability that she chooses:

a blue hairclip. $\frac{3}{20}$

a black hairclip. $\frac{1}{4}$

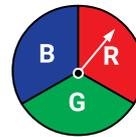

a chrome hairclip. $\frac{3}{10}$

a hairclip that is either red or chrome. $\frac{3}{5}$

a hairclip that is not red. $\frac{7}{10}$

Q23

When the arrow is spun, what is the chance that it lands on yellow?

- no chance
- one chance in three
- likely (probably will happen)
- unlikely (probably won't happen)

Q24

What is the chance that it will rain at least once in the next month?

- even chance
- impossible
- one chance in three
- likely (probably will happen)

Q25

What is the chance the sun will rise in the east tomorrow?

- even chance
- certain
- impossible
- likely (probably will happen)

Q26

What is the chance the sun will rise in the west tomorrow?

- even chance
- certain
- impossible
- likely (probably will happen)

Q27

A die is rolled. What is the chance of getting an even number?

- even chance
- impossible
- one chance in six
- unlikely (probably won't happen)

Q28

A die is rolled. What is the chance of getting a number more than 3?

- unlikely
- certain
- four chances in six
- even chance

Q29

A die is rolled. What is the chance of getting a number more than 5?

- one chance in six
- certain
- likely
- even chance

Q30

A die is rolled. What is the chance of getting a number less than 3?

- likely
- one chance in six
- two chances in six
- even chance
